

# Imagine having **24/7 access** to your student's classes

*...you don't have to imagine anymore.*

Thanks to Canvas, your student has 24/7 access to learning. We want to expand that access to parents and other caregivers by offering "Observer" accounts. It's as easy as 1, 2, 3.

**1**

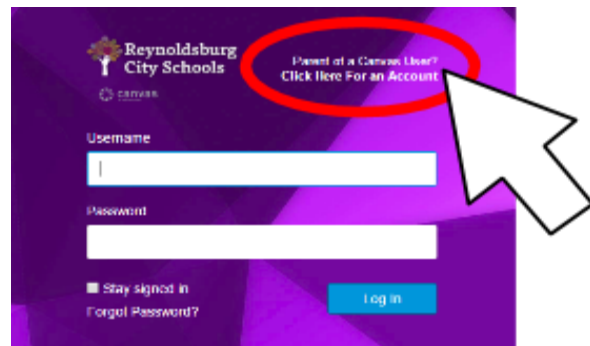

Visit <http://reyn.instructure.com> and click on top right link "Parent of a Canvas User?" to create an account.

**2**

You will need your student's username (first.last) and password (three zeros followed by their Student ID--ex. Student ID 444555 would be 000444555).

**3**

Click "Get Started" and configure your communication preferences, set a password, and explore! Do you want daily updates emailed to you? Weekly updates? Pick what works for you.

Now you're ready to have instant access to everything your student's teachers post to Canvas from flipped lessons to assignments to graded quizzes! Many things on Canvas grade automatically\* so grades are updated faster than a teacher could update them to PowerSchool. Parents in the same or different homes can sign up for accounts so please share this information with any adult that helps care for and monitor your student's success.

## Questions on setting up an observer account?

Contact Mrs. Snyder ([ksnyder@reyn.org](mailto:ksnyder@reyn.org)) or Mr. Boan ([aboan@reyn.org](mailto:aboan@reyn.org)) at 614-501-5600.

\*Multiple choice, fill in the blank, and numerical answers grade automatically but short answers and essay responses require teacher review for a grade.
