### Our School

Rose Hill Elementary School is committed to providing a rigorous learning environment that fosters the growth of students academically, socially, mentally, and emotionally. Our ultimate goal is to prepare students to be self-sustained learners with bright futures.

We offer a blended learning opportunity through the use of i-Ready online learning program that complements our in-class lessons, the use of Lexia to supplement our literacy program, and Reflex Math to strengthen basic math skills. We provide intervention when needed, but all of our students are engaged in online learning paths that adjust to the need of each child.

### Academics

We offer a blended learning curriculum through the use of i-Ready's online learning program that complements our in-class lessons. Student growth is monitored through i-Ready to guide classroom instruction, intervention, and adjust students' online learning paths.

### Social-Emotional Development and Positive Behavior Intervention Support (PBIS)

Second Step Social-Emotional Curriculum and PBIS help students to build skills to be successful learners. Rose Hill Elementary emphasizes respect with a focus on our ROCK character traits: Responsibility, Outstanding Effort, Community, and Kindness. Cognitive training is offered as an intervention to enhance students' ability to regulate, focus, and complete tasks through Play-attention biofeedback gaming software and Watchminder3 biofeedback "smart watches."
