## Our School

PBIS based building that provides educational services to meet the needs of diverse learners in grades PK-4. Taylor Road Elementary has a strong tradition of parent and community involvement. Our PTO and local businesses help support many special experiences for students such as COSI on Wheels, Walk-A-Thon, and many field trips throughout the year. We have strong enrichment programs in music, art, and physical education that provide learners with opportunities to excel in non-academic areas. The Taylor Road staff is committed to making all students feel welcome and supported. It is our goal to meet their academic, social, and emotional needs so that they can be their very best!
